OST Summer Camp 2023: Program Descriptions

Jahn Summer Reading Camp:

Have fun this summer while also keeping your literacy skills sharp! Join **Ms. Lewis** and other students, to work on reading comprehension, phonics, fluency, and writing skills. You can find us playing fun games, singing songs, and working outside whenever possible! **This camp is for current K-2nd students only (Rising 1st-3rd graders).**

Mad Scientist Who Love Fairy Tales:

Calling all Fairy Tale Fans! Come join us and create STEM projects around Fairytales. Can you make a bridge for Three Billy Goats to cross so that the Troll cannot get them or a ladder to reach Rapunzel in her tower window? We will explore these ideas and more!

- **Ages: Current 1st & 2nd grade students (Rising 2nd-3rd graders)**
- Location of Camp: Dr. Coleman's Room
- Contact Dr. Coleman (nlcoleman@cps.edu)

Special instructions: Please send your camper with their backpack and water bottle daily. As we are often playing outside, campers should wear running shoes daily. **Please inform me of any allergies.**

Reading Wonders Camp with Ms. Mavros

This camp is for current 1st & 2nd graders (Rising 2nd & 3rd graders)

Calling all **readers** and **artists**! Each day we will spend time exploring books by new authors. After reading we will create **book-based art using Legos, clay, paint, and more!** We will also have free reading and creation time too.

Science Sparks

Your student scientist will explore the scientific process in a fun and exciting way! Each day of camp your student will hypothesize, observe, and test out a new experiment. This will include a variety of creative and messy science experiments. For Silly Science your scientist will conduct a new experiment each day. Science Exploration will take our experiments to the next level by designing, building, and testing out different types of models. For Science Exploration your scientist will create, build, and test their models over the course of multiple days. Your scientist will explore the creative side of science and make new discoveries along the way!

- Grades of eligible campers: rising 3rd-5th graders (Current 2nd-4th graders)
- Week 1: June 26-29
- Week 2: July 3-6 (No camp on 4th of July)
- Week 3: July 10-13
- Time of camp: 9:00 am - 12:00 pm
- Location of camp: Mrs. Buhler's Science Lab
- Contact Mrs. Buhler cabuhler@cps.edu

Adventures Around the World!

Join **Ms. Paul** for a trip around the world this summer! We will be "traveling" to different countries each day, learning about the culture, doing crafts, reading stories, and playing games inspired by that country! Please join us on our journey!!!

Ages: Current 2nd-5th graders (Rising 3rd-6th graders)

Location of camp: Ms. Paul's room

Wizardsing World

Calling all wizards and spell casting wanderers! Join me for an adventure at Jahn Elementary School of Magic! Unlock your potential and discover the answers waiting for you inside the wondrous world of wizardsing. Featuring: Wand Making, Science Experiments , Edible Science Experiments, Arts & Crafts and more.

- Age of campers: Rising 4rd - 5th graders (current 3rd & 4th graders)
- Time of camp: 9:00 am - 12:00 pm
- Location of camp: Mrs. Walsh's room (301)
- Contact: Mrs. Walsh (jmwalsh2@cps.edu)

Special instructions: Please send your camper with their backpack and water bottle daily. As we are often playing outside, campers should wear running shoes daily. **Please inform me of any allergies.**

Math in the Real World Camp!

"Do you love math? Do you not love math but want to get better at it? Then this is the summer program for you. We will spend three weeks looking at how math applies to real world scenarios, and how to identify and analyze patterns. We will travel outside the building to the Jahn campus, and other surrounding neighborhood locations (TBD) to collect data from the environment around us and see what conclusion we can draw from the data we collect. We will look at real world applications of mathematics and how it is used on a day to day basis, and maybe even develop a math based solution to a problem we see in our community or the larger world around us. We will also incorporate physical movement, play, games, and math challenges to look at math as more than worksheets, textbooks, and classwork. Even if math is not your favorite subject, come on out and have some fun this summer with Mr. Knaus and develop your critical thinking and logic skills. I hope to see you there!"

Grades of eligible campers: Rising 4th-8th graders (current 3rd-7th graders)
